

Cleaning 3D face shields or goggles

- ✚ Face shields and goggles are reusable.
- ✚ Wipe them down carefully with a disinfectant wipe so it doesn't scratch the shield or spray with disinfectant spray if available.
- ✚ After the proper dry time (found on the disinfectant can) you could rinse them with water to prevent a film buildup.
- ✚ Staff will be responsible for the care and safe keeping of their shield.
- ✚ Suggest labeling your face shield with your name.
