

Mask Required to Enter and/or Receive Care at VMG AS of April 22, 2020

Effective Thursday April 23rd all who enter a VMG Health Center need to be wearing a face mask, employees, practitioners, vendors, and patients*.

Patients

- ✚ **All patients** who are going to be seen in the health center, receive care in the parking lot, receive care outside the center on the property, for all services, are to be informed at the point of scheduling they must wear and arrive for their appointment with their personal facemask/face covering.
- ✚ **All patients** must have a facemask/face covering when they present to the health center main entrance, care in the parking lot, receive care outside on the property, for all care and services. A patient may not access the center or receive care if they do not have facemask/face covering.
- ✚ When a patient presents to the respiratory entrance at GHC, AMC, NHC they should be wearing their personal facemask/covering, and will be provided a surgical mask to enter the respiratory unit.
- ✚ When VMG is able to begin pediatric visits for children 0-2 years the parent/caregiver will be requested and required to wear a mask.

Staff and practitioners

- ✚ All staff and practitioners are to wear their personal facemask/face covering upon entering the health center.
- ✚ Following screening at the designated entrance, temperature being taken, and being cleared to enter the center, staff and practitioners will be provided one surgical face mask to wear for the day.

Vendors

- ✚ All vendors who need to enter the center, must wear their personal facemask/face covering to enter.

****This will be revised as needed due to Covid 19 and the availability of personal protective equipment.***
